

ANURA

# INTRODUCTION

The main objective of this endeavor is to explore, experiment, and create an identity framework, encompassing all stages from initial concept to final implementation. This was achieved by overhauling the tabletop game “Chicken!” by Scott Almes. Kinsley Bell, Sarah Demus, and Janey Shimp collaborated to revamp various aspects including the game’s name, branding, packaging, and instructional materials. Our adaptation, now titled “Anura,” transforms players from tadpoles into frogs as they progress through the game. We have crafted our own unique visual identity system and produced all required materials to play this exciting metamorphosis-themed experience.

# WELCOME TO THE SWAMP!

2–8 PLAYERS  
10–20 MINUTES

## COMPONENTS:

4 starting dice  
4 advancing dice  
4 extra dice  
8 player tokens  
1 game board

## SETUP:

- Each player chooses a token piece and places it on the starting lily pad.
- Any unused tokens can remain in the box.
- Arrange all twelve dice in the left corner space available on the board.
- The tadpole, or the youngest, of the players goes first.
- Give the 4 beginning dice to the starting player to begin the game.

STARTING SPACE: 

STARTING DICE:   

## PLAYING YOUR TURN:

At the beginning of your turn, you must choose one of the two options:

### GO FOR IT!

Take all of the dice passed to you and roll.

### CROAK!

Return all advancing and extra dice passed to you back to the board, and lose move back one space. Now take the 4 remaining beginning dice and roll.

\*Note: If you choose to “CROAK” while on the starting space, you do not have to move.

After you first roll, set any bugs you have to the right and any snakes you have to the left. Bugs will score you points, but if at any point in your turn, you have rolled three snakes or more across all your dice, then you have busted! Your turn ends, and you score zero points. See more on “You Busted!”

## HATCHING DICE:

If you don’t bust, then leave the blank dice and tadpoles in the middle. For each tadpole rolled, add a dice, advancing dice are added first, then the extra dice. Extra dice are riskier but also more rewarding. If no dice are left on the board, you do not add another dice. Any added dice are treated as if they are blank.

\*Tip: It can be helpful to add new dice on their blank side to not confuse them with any frogs or snakes rolled.\*

You now have a choice to reroll all dice in their middle, or stop and “count your bugs” (see below).

If you choose to reroll, remember you must roll all of the dice in the middle—this includes your blank dice, dice showing tadpoles, and any newly added dice in the middle.

You only get one reroll per turn, so after this reroll, your turn will be done. If you did not bust after this reroll, collect any new dice and count your frogs.

## COUNTING YOUR BUGS:

When your turn ends with less than 3 snakes, move your player token one space for every frog rolled. The double frogs on the extra dice are worth 2 points! Pass all of your dice to the next player clockwise. It is now their turn.

## YOU BUSTED:

If three snakes or more are showing across all your dice, your turn ends as the snakes have eaten your frogs! Return all the advancing and extra dice to the board and score zero points. Then, pass all 4 beginning dice to the next player clockwise. It is now their turn.

## END OF THE GAME:

When a player makes it to land and becomes a frog, the game ends and that player has won!

# WELCOME TO THE SWAMP!

2-8 PLAYERS  
10-20 MINUTES

### COMPONENTS:

- 4 starting dice
- 4 hatching dice
- 4 food dice
- 8 player tokens
- 1 game board

### STARTING SPACE:

STARTING DICE: [dice icons]

### PLAYING YOUR TURN:

At the beginning of your turn, you must choose one of the two options:

#### GO FOR IT!

Take all of the dice passed to you and roll.

#### CRACK!

At the beginning of your turn, you must choose one of the two options:

#### GO FOR IT!

Take all of the dice passed to you and roll.

### SETUP:

- Each player chooses a token piece and places it on the starting space.
- Any unrolled tokens are removed to the back space available on the board.
- Arrange all twelve dice in the left corner zone first.
- The youngest, or the youngest, of the players goes first.
- Give the 4 starting dice to the starting player to begin the game.

### HATCHING DICE:

If you don't have, then leave the blank die any number in the middle. For each number rolled, add a die, choosing the die you want for the most revealing. If the dice are left on the board, you're not and another die, the added dice are treated as if they are blank.

If you have a choice to reveal all dice in their numbers, or they are "cover your bugs" dice.

If you choose to reveal, remember you must roll all of the dice in the middle zone, including the dice showing numbers, and any newly added dice to the middle.

You will get one result per turn, so after this result, your turn will be done. If you did not and cannot your frog.

### COUNTING YOUR BUGS:

When your turn ends with less than 3 minutes, move your frog to the next space for every frog token. The double frog on the extra dice are worth 2 points. Pass all of your dice to the next player afterward. It is now their turn.

### YOU BUSTED:

If three numbers or more are showing across all your dice, your turn ends at the middle zone. Move your frog to the next space and move your points. Then, pass all 8 hatching dice to the next player afterward. It is now their turn.

### END OF THE GAME:

When a player makes it to land and becomes a frog, the game ends and that player has won!
